How long have you been programming?

More than 3 years

Which programming languages have you used?

Java, Python, C++

How familiar are you with the programming language used in today's examples?

4

How familiar are you with VSCode or similar code editors?

3

How often do you use AI for programming?

Weekly

Which AI tools have you used to code, if any?

Codex

How do you normally check code suggested by AI?

I will usually review it and try to understand every part of the code

What makes AI generated code difficult to understand, if anything?

Sometimes the logic, the order of the functions. Also, sometimes AI will use something I didn't know previously.
